

DATE: February 12, 2021

TO: PECG Board of Directors

FROM: Bishop Section

SUBJECT: Section Report March 2020 to February 2021

Last year we were going to have a meeting in March after the Directors meeting but decided not to because of the Covid-19 virus. The District 9 department quickly started to implement teleworking. Most of the PECG members have been teleworking since the order. The Scholarship Committee decided not to have the Bishop Section Scholarship because of the Covid-19 restrictions.

The president of Bishop Section volunteered in October at a virtual school event for middle students about community college. Andres Sanchez and several other professional individuals in the community discussed the benefits of community college. In January 2021, Andres also mentored a senior at Bishop Union High School about the engineering profession. The student wanted to learn about the different engineering degrees that are provided at the university.

The hope this year is to have a March virtual meeting and determine a way to start reaching out to the middle and high schools.
