***We've Got the Power* DOCUMENTARY HONORED WITH EMMY® AWARD FOR BEST ANIMATION**

SACRAMENTO, Calif. – The Professional Engineers in California Government (PECG) is pleased to announce that its latest documentary which focuses on renewable energy solutions, *We've Got the Power*, has been honored with an Emmy® Award from the San Francisco Chapter of the National Academy of Television Arts & Sciences.

We've Got the Power received the Emmy® for Best Graphic Arts: Graphics & Animation. The program was also nominated for Best Documentary.

“It’s an honor to have the hard work of our entire production team recognized by the Academy,” said PECG President Cathrina Barros. “*We've Got the Power* makes viewers aware that renewable energy technologies can save consumers money, improve our economy and create a healthier planet for future generations.”

We've Got the Power is airing right now on network and public television stations across the country. It is also available on DVD at www.wevegotthepower.com.

This is the fourth Emmy® Award-winning documentary co-produced and sponsored by PECG. The Academy previously honored *The Bridge So Far – A Suspense Story*, *A Span in Time* and *The Next Frontier: Engineering the Golden Age of Green*.

PECG represents 13,000 state-employed engineers and related professionals responsible for designing and inspecting California's infrastructure, improving air and water quality, and developing clean energy and green technology.

About *We've Got the Power*

The film is co-produced by Filmsight Productions and the Professional Engineers in California Government (PECG). More information is available at www.wevegotthepower.com. Learn more about all five PECG documentaries at www.pecg.org/communications/documentaries.htm.
