

**PROFESSIONAL ENGINEERS IN CALIFORNIA GOVERNMENT
2021 - 2022 GOLDEN GATE SECTION ELECTION
Candidate Statements**

President: Carrie Austin

Hello Colleagues,

For 20 years, I have proudly worked in the public interest as a Water Resource Control Engineer at the San Francisco Bay Water Board. I joined PECG on day one and became active after the 2018 Supreme Court Janus decision made membership optional, which means we need to recruit.

As President this past year, I worked to create an engaged and vibrant Golden Gate Section. Engagement Committee volunteers delivered logo mugs to your work-from-home address. Recruiting Committee volunteers developed a script for a virtual coffee with a new hire (and filmed it for our May membership meeting). This fall, I am looking forward to a Section luncheon or picnic face-to-face with you. I also serve on the Corporate Membership Committee where I advocate to bring us into the electronic era.

My vision is an engaged and vibrant Golden Gate Section, meaning that we have a variety of speakers and topics at our Section meetings, swag to show our logo on screen and in the office, and that we meet with new hires to recruit them within their first 90 days on the job. Let us have fun, too! It would be my honor to serve as your President.
