

**2023-2024 Bay Area Section Election
Candidate Statement**

Vice President Rank and File: CRISTINA PRECIADO

Current Classification: Transportation Engineer, Range D
Department of Agency: Caltrans D4
Years of State Service: 15 years

PECG EXPERIENCE:

I became a PECG member during my first week after being hired in May, 2008. I started to be a volunteer section member then was voted in as secretary for the Bay Area section. Served as secretary. I have always been an active member helping with membership for new and existing rank and file engineers at Caltrans. PECG was a big support during covid transition to telework and defended my case during a work incident. I am excited to return as an active member representing the rank and file engineers as VP Rank and File.

CANDIDATE STATEMENT:

I am running for VP Rank and File to continue the great work by PECG members in representing current Bay Area Caltrans engineers at District 4. I am excited to continue the increase in membership for our union using my great relationship with a vast number of engineers in various departments. I hope to serve our union and bring more volunteers in rank and file to the organization to keep an active vibrant membership.
