

**PROFESSIONAL ENGINEERS IN CALIFORNIA GOVERNMENT  
2023 – 2024 FORT SUTTER SECTION ELECTION  
Candidate Statement**

**Vice President Supervisory: Jacob Englander**

**Classification:** ARS I

**Department:** CARB

**Years of State Service:** 5

**PECG Experience:** I have been a PECG member for five years first as an Air Resources Engineer and then as a Staff Air Pollution Specialist at CARB working in the Industrial Strategies Division for the Low Carbon Fuels Standard program.

**Candidate Statement:** Supervisors across the Ft. Sutter section deserve strong representation within PECG and I hope that if elected I can serve as your voice for furthering your interests. Supervisors are as a class overworked and undercompensated, which is a recipe for burnout and resentment. Your representatives at PECG should be made better aware of these burdens and I intend to make this a priority if elected. Additionally, as part of a newer generation of supervisors, I also intend to pay close attention for the discrepancies between pre- and post- PERPA state workers are treated in collective bargaining.
