### CANDIDATE STATEMENT:

It is a challenging time for state employees, and more than ever we have to rally together and continue to fight for our rights!

I am proud to work for the State of California. As state employees, we work with the motivation of public safety and the best interest of the taxpayer in mind. It is what drives us to work above and beyond what is expected, because we take pride in a job well done.

The same mind-set has also kept me involved with PECG for almost 16 years 9 months. The members that volunteer their time to be involved with PECG are team players, caring and determined to do the right thing for the entire membership. Their goal is to keep state employees' wages and benefits protected. I enjoy working with all these people, and it would truly be an honor to be selected as the next President Elect in this section of PECG.

I am running for President Elect because we need to sharpen our current focus on protecting our rights in a time when we are again the object of take-always.

Thank you for reading my statement and I would appreciate your vote for President Elect in this Section.
