

Secretary: Payman Alemi

Classification: Senior Water Resources Control Engineer

Department: Water Resources Control Board

Duration of PECG Membership: March 2016 to Present

PECG Experience: None

Candidate Statement: I have been a PECG member ever since I started working for the State Water Board as a water resource control engineer in March 2016 and greatly value all that PECG does for state workers. I recognize that there is no finish line, and our advocacy must continue if we want to maintain the benefits that we have collectively worked hard to earn. And now I would like to have a chance to give back, which is why I am running for River City Section Secretary. As Secretary, I would like to help organize events, provide educational resources, and advocate for our members. I am qualified for this role because I am passionate about protecting our benefits, am detail-oriented and have excellent documentation skills.
