

## 2024-2025 SECTION ELECTION CANDIDATE STATEMENT

---

**Director: John Murphy**

**Classification:** Supervising Engineering Geologist

**Department:** Central Valley Regional Water Quality Control Board

**Years of State Service:** 8

**PECG Experience:** 2016-2024: Member 2021-2022: River City Vice President Supervisory and Management 2022-2023: River City President-Elect 2023-2024: River City President

**Candidate Statement:** With three years of PECG River City leadership experience as VP Supervisory and Management, President-Elect, and now President, I believe I am ready to fulfill the objectives of the Director Role for our section. During my tenure with PECG River City, I organized membership appreciation events like Kings games, museum days, and lunch events at local offices. Additionally, as President for the past year, I attended Corporate meetings, led monthly River City meetings, engaged with members and non-members, supported committee activities, and encouraged recruitment efforts to increase our membership and elevate the voice from our section. Given the budget situation and other significant challenges facing our members over the next year, a Director with section and Corporate experience will be essential to ensure River City is represented as we enter a bargaining season next year. I therefore ask for your vote and thank you for your support!
