

**PROFESSIONAL ENGINEERS IN CALIFORNIA GOVERNMENT
2024 - 2025 SACRAMENTO SECTION ELECTION
Candidate Statement**

Treasurer: Lan Nguyen

Classification: Transportation Engineer, Civil
Department: Department of Transportation
Years of State Service: 4 Years

PECG Experience: I have been an active PECG Member in the Sacramento section since I was first hired in 2020.

Candidate Statement: I began my career at Caltrans as a DBE Program Engineer and currently work in Structure Construction (a statewide subdivision of Engineering Services) where I build bridges and have the opportunities to collaborate with District Construction, Design, and other functional units.

The most important impact PECG can do for Unit 9 employees is to pursue increased benefits and salaries in parity with other non-PECG public agencies such as cities, counties, and local transportation agencies, and I want to be at the forefront of those discussions. Being an elected officer will lend me an increased platform to help others understand the value of PECG membership.

I have the necessary skills and qualifications based on my experience communicating with small businesses, tracking job costs, collaborating and conducting business daily with bridge construction contractors.

I am a hard-working, ambitious, and highly driven individual who will ensure your concerns are heard at the bargaining table.
