

Dear Fresno Section Member:

The Fresno Section is seeking volunteers to run for Section Office. We welcome members to become officers and bring energy and fresh ideas to our Section.

The Section Officers organize events to keep the members informed and serve as a conduit to the Corporate Board. Section Officers can also help to promote the image of engineers and related professionals in California government.

PECG is one of the most effective unions in representing its members in contract negotiations because of dedicated members who volunteer their time. If you are interested in promoting Unit 9 engineers and related professionals or just interested in learning how PECG operates, we invite you to run for Office or help our Section as a non-elected volunteer. No experience is necessary.

The deadline to submit your candidacy is **Friday, June 14**. [Please click here for the Candidate Statement form.](#)

If you have any questions, need additional information, or if your address has recently changed, please contact any Section Officer or any member of the Section's Nominating Committee, which includes: Ramon Lopez-Maciel, Rotimi Adebayo, and Ellery Ellis.

Thank you for your consideration.

Ramon Lopez-Maciel
Fresno Section President Elect
