

PROFESSIONAL ENGINEERS

IN CALIFORNIA GOVERNMENT

## PECG SCHOLARSHIP PROGRAM PREVIOUSLY ACCEPTED MAJORS

---

**Students pursuing a STEM-related major are encouraged to apply.**

**If your major is not listed, or you are unsure if your major qualifies as a PECG-related field of study major, please send an email with the name of your major to [pecg@pecg.org](mailto:pecg@pecg.org).**

- Aerospace Engineering
- Agricultural and Resource Economics
- Anthropology-Environmental
- Applied Mathematics
- Applied Plasma Physics
- Applied Sciences
- Archeological Geology
- Architectural Engineering
- Architecture
- Biochemistry
- Biochemistry and Molecular Biology
- Bioengineering
- Bioengineering - Biotechnology
- Biological Engineering
- Biological Sciences
- Biological Systems Engineering
- Biology
- Bio-Mechanical Engineering
- Biomedical Engineering
- Cell Biology and Neuroscience
- Chemical and Biomolecular Engineering
- Chemical Engineering
- Civil and Environmental Engineering
- Civil Engineer General Option
- Civil Engineering
- Civil Engineering: Construction Engineering and Management
- Civil Engineering: Economics
- Civil Engineering: Geotechnical
- Civil Engineering: Structures
- Community, Environmental, and Planning
- Computer Engineering
- Computer Science
- Computer Science and Engineering
- Computer Science: Physics
- Construction Engineering
- Earth Science
- Electrical and Computer Engineering
- Electrical and Electronics Engineering
- Electrical Engineering
- Electrical Engineering and Computer Science
- Engineering
- Engineering Management
- Engineering Technology
- Environmental Engineering
- Environmental Management
- Environmental Science, Policy and Management
- Environmental Sciences
- Environmental Science and Engineering
- Environmental Studies
- Field Biology
- Fisheries Biology
- Geological Science
- Geology

- Geomatic Engineer
- Geosciences
- Hydrologic Sciences
- Industrial Engineering
- Industrial Hygiene
- Industrial Technology Manufacturing
- Landscape Architecture
- Marine Biology
- Materials Science and Engineering
- Mathematics
- Mathematics/Chemistry
- Mathematics with Specialization in Computing
- Mechanical and Aerospace Engineering
- Mechanical and Ocean Engineering
- Mechanical Engineering
- Mechanical Engineering and Materials Science
- Mechatronic Engineering
- Molecular, Cell, and Developmental Biology
- Natural Resources Conservation: Science and Management
- Petroleum Engineering
- Physics
- Physics and Astronomy
- Plant Science/Biology
- Rangeland Resource Science
- Robotics Engineering
- Software Engineering
- Structural Engineering
- Sustainable Environmental Design/  
Landscape Architecture
- Surveying and Geomatics
- Sustainable Water Engineering
- Transportation and Engineering Management
- Transportation Engineering
- Transportation Management
- Water Resource Engineering
