

**PROFESSIONAL ENGINEERS IN CALIFORNIA GOVERNMENT
2022 – 2023 GOLDEN GATE SECTION ELECTION
Candidate Statements**

President: David Tanouye

It was my pleasure to have served the Golden Gate Section as VP Rank & File the past year and I look forward to the opportunity to be elected as President this coming year.

As a recently licensed Professional Geologist in my sixth year as staff Engineering Geologist at the SF Bay Water Regional Water Board, I am excited to implement ideas for attracting new members and using our resources to further benefit the section.

We are slowly building a more active cohort within the Golden Gate Section, and have initiated four committees during my time on the Board: Engagement, Recruiting, Support for STEM Education, and Professional Development. I envision that we will continue to maintain these programs and expand our outreach to develop an engaging and inclusive organization, and better understand the needs of our members.

I would be honored to be elected as President this year to help further the interests of our section. As always, thank you for your support and Go PEEG!
