

## WOW! That's Engineering!

On March 12<sup>th</sup>, 135 Redding Area girls participated in SWEs 12<sup>th</sup> Annual Wow! That's Engineering Event.

A special thank you to the Redding Section PECG Members who volunteered for this event, and to Kristen Kingsley for providing the link to the photos captured by event organizers and volunteers.

**Are the kids in your life participating in a STEM related event? We want to hear about it!**

Contact a Redding Section Board Member with details.

## Meetings

On Wednesday, May 4<sup>th</sup>, Redding Section Board Members met to discuss items of note over the past quarter, as well as plans for the upcoming quarter. Topics included:

- Telework – What are offices doing, and how are members feeling? This will be a topic that is of great interest to our members as permanent hybrid plans are implemented statewide.
- Sponsorships – Are there any STEM events coming up in the area?
- Organizing a Redding Section Activity for the 3<sup>rd</sup> quarter.
- Budget review and notice of approval of the 2022 calendar year budget by Redding Section membership.
- Upcoming Board of Director's Meeting – Take special note of discussion regarding stances on telework and updates on the bargaining process.

### *Did You Know?*

Notes from Section Board meetings and the Director's Notes from the Quarterly Board of Director's meetings are available at the Redding PECG Section Website.

## New Employee Orientations

Redding Board Members continue to meet with new employees about the benefits of joining PECG; however, we encourage all members to reach out to new colleagues in their work groups! This is particularly important for our At-Large members, where formal new employee orientations may not occur.

## Upcoming Events

The Redding Board discussed a few outdoor group activities to bring members together. Stay tuned for announcements for a group bike ride coming this summer, and more events to come in the fall!

Redding Section Elections will be happening in August. If you are interested in running for a Board position, watch your inbox for upcoming announcements for nominations and candidate statements. Just a reminder, ballots will be electronic this year.
